

La Caretera  
Italy

**Claim ID:** 190718  
**Membership Number:** 170593

17 December 2007

Dear La Caretera,

We are pleased to confirm that you have set the new Guinness World Record for 'Longest pizza' and a certificate to commemorate has been sent to you by post today.

Details of your achievement have been entered into our records as follows:

The record for the longest pizza is 264.08 m (886 ft 4 in) and was achieved by La Caretera (Italy) in Gavirate, Italy on 13 May 2007.

Although the certificate does not automatically guarantee an entry in our world-famous annual book, we do consider all new records for inclusion in all future Guinness World Records publications and products.

As an official record holder, you can request further certificates and find out all about using our logo and trademark to let everyone know about your achievement or for any other commercial purpose. To find out more, please go to [www.guinnessworldrecords.com](http://www.guinnessworldrecords.com), log in and select claim 190718.

Welcome to the very select club of Guinness World Records holders!

Yours sincerely,

Kaoru Ishikawa  
Records Management Team
